Revision 1.003 English

# **PROFINET / DeviceNet Slave - Converter**

(Order Code: HD67609-A1)

For Website information:

www.adfweb.com?Product=HD67609

For Price information:

www.adfweb.com?Price=HD67609-A1

### **Benefits and Main Features:**

- Electrical isolation
- Two PROFINET ports
- Temperature range: -40°C/+85°C (-40°F/+185°F)

User manual

#### **UPDATED DOCUMENTATION:**

Dear customer, we thank you for your attention and we remind you that you need to check that the following document is:

- Updated
- → Related to the product you own

To obtain the most recently updated document, note the "document code" that appears at the top right-hand corner of each page of this document.

With this "Document Code" go to web page <a href="www.adfweb.com/download/">www.adfweb.com/download/</a> and search for the corresponding code on the page. Click on the proper "Document Code" and download the updates.

To obtain the updated documentation for the product that you own, note the "Document Code" (Abbreviated written "Doc. Code" on the label on the product) and download the updated from our web site www.adfweb.com/download/

#### **REVISION LIST:**

Revision	Date	Author	Chapter	Description
1.000	27/09/2012	Dp	All	First Release
1.001	24/07/2013	Fl	All	Revision
1.002	09/05/2024	Ln	All	Revision
1.003	19/11/2024	Ln	All	New design

#### WARNING:

ADFweb.com reserves the right to change information in this manual about our product without warning.

ADFweb.com is not responsible for any error this manual may contain.

#### TRADEMARKS:

All trademarks mentioned in this document belong to their respective owners.

Document code: MN67609\_ENG Revision 1.003 Pagina 3 di 25

### **SECURITY ALERT:**

#### **GENERAL INFORMATION**

To ensure safe operation, the device must be operated according to the instructions in the manual. When using the device are required for each individual application, legal and safety regulation. The same applies also when using accessories.

### **INTENDED USE**

Machines and systems must be designed so the faulty conditions do not lead to a dangerous situation for the operator (i.e. independent limit switches, mechanical interlocks, etc.).

### **QUALIFIED PERSONNEL**

The device can be used only by qualified personnel, strictly in accordance with the specifications.

Qualified personnel are persons who are familiar with the installation, assembly, commissioning and operation of this equipment and who have appropriate qualifications for their job.

### **RESIDUAL RISKS**

The device is state of the art and is safe. The instrument can represent a potential hazard if they are inappropriately installed and operated by personnel untrained. These instructions refer to residual risks with the following symbol:

This symbol indicates that non-observance of the safety instructions is danger for people to serious injury or death and / or the possibility of damage.

#### **CE CONFORMITY**

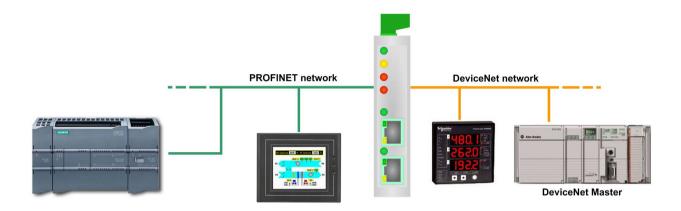

The declaration is made by us. You can send an email to <a href="mailto:support@adfweb.com">support@adfweb.com</a> or give us a call if you need it.

# **EXAMPLE OF CONNECTION:**

HD67609-A1

Document code: MN67609\_ENG Revision 1.003 Pagina 5 di 25

### **CONNECTION SCHEME:**

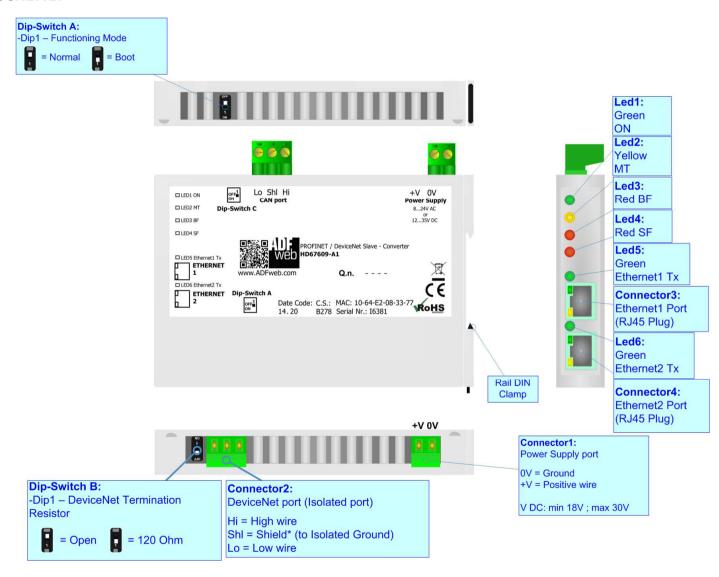

Figure 1: Connection scheme for HD67609-A1

Document code: MN67609\_ENG Revision 1.003 Pagina 6 di 25

### **CHARACTERISTICS:**

The HD67609-A1 is a PROFINET / DeviceNet Slave - Converter.

It has the following characteristics:

- → Up to 455 bytes in reading and 455 bytes in writing;
- → Triple isolation between DeviceNet Power Supply, DeviceNet Ethernet, Power Supply Ethernet.
- → Two-directional information between DeviceNet bus and PROFINET bus;
- → Mountable on 35mm Rail DIN;
- → Wide power supply input range: 8...24V AC or 12...35V DC;
- Wide temperature range: -40°C / +85°C [-40°F / +185°F].

#### **CONFIGURATION:**

You need Compositor SW67609 software on your PC in order to perform the following:

- Define the parameter of PROFINET line;
- → Define the parameter of DeviceNet line;
- Update the device.

Document code: MN67609\_ENG Revision 1.003 Pagina 7 di 25

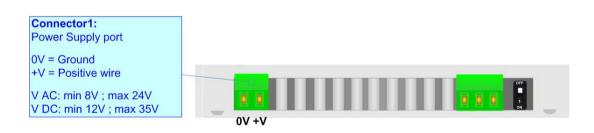

# **POWER SUPPLY:**

The devices can be powered at 8...24V AC and 12...35V DC. For more details see the two tables below.

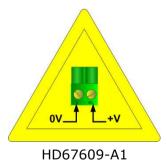

VAC	$\sim$	VDC	===
Vmin	Vmax	Vmin	Vmax
8V	24V	12V	35V

# Consumption at 24V DC:

Device	Consumption [W/VA]
HD67609-A1	3.5

# **Caution: Not reverse the polarity power**

ADFweb.com Srl - IT31010 - Mareno - Treviso

Document code: MN67609\_ENG Revision 1.003 Pagina 8 di 25

### **FUNCTION MODES:**

The device has got two functions mode depending of the position of the Dip1 of 'Dip-Switch A':

- → The first, with Dip1 in Off position (factory setting), is used for the normal working of the device.
- → The second, with Dip1 in On position, is used for upload the Project/Firmware.

For the operations to follow for the updating (see 'UPDATE DEVICE' section).

According to the functioning mode, the LEDs will have specifics functions (see 'LEDS' section).

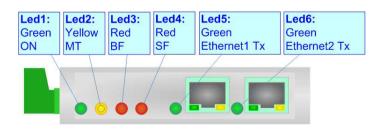

Document code: MN67609\_ENG Revision 1.003 Pagina 9 di 25

### LEDS:

The device has got six LEDs that are used to give information of the functioning status. The various meanings of the LEDs are described in the table below.

LED	Normal Mode	Boot Mode	
1: ON [supply voltage]	ON: Device powered	ON: Device powered	
(green)	<b>OFF:</b> Device not powered	<b>OFF:</b> Device not powered	
2: MT [maintenance display]	<b>ON:</b> Device not able to communicate with the Master DeviceNet	Blinks quickly: Boot state	
(yellow)	OFF: No maintenance are present	Blinks very slowly (~0.5Hz): update in progress	
3: BF [bus fault] (red)	ON: The Ethernet connection is defective; the IP address exists several times in the network; the own NameOfStation exists several times in the network; no IP address has been set Flashing: At least one configured AR is no longer in the data exchange OFF: No errors are present	Blinks quickly: Boot state Blinks very slowly (~0.5Hz): update in progress	
4: SF [group error] (red)	ON: At least one AR is not in the data exchange OFF: No errors are present	Blinks quickly: Boot state Blinks very slowly (~0.5Hz): update in progress	
5: Ethernet1 Tx (green)	Blinks when is transmitting Ethernet frames	Blinks quickly: Boot state Blinks very slowly (~0.5Hz): update in progress	
6: Ethernet2 Tx (green)	Blinks when is transmitting Ethernet frames	Blinks quickly: Boot state Blinks very slowly (~0.5Hz): update in progress	

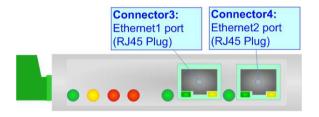

INFO: www.adfweb.com

Document code: MN67609\_ENG Revision 1.003 Pagina 10 di 25

### **PROFINET:**

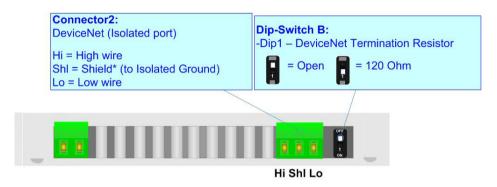

The PROFINET connection must be made using Connector3 and/or Connector4 of HD67609-A1 with at least a Category 5E cable. The maximum length of the cable should not exceed 100m. The cable has to conform to the T568 norms relative to connections in cat.5 up to 100 Mbps. To connect the device to an Hub/Switch is recommended the use of a straight cable, to connect the device to a PC/PLC/other is recommended the use of a cross cable.

Document code: MN67609\_ENG Revision 1.003 Pagina 11 di 25

### **DeviceNet:**

For terminate the DeviceNet line with a  $120\Omega$  resistor it is necessary that the Dip1 of 'Dip-Switch B' is at ON position.

# Cable characteristics:

DC parameter:	Impedance	70 Ohm/m
AC parameters:	Impedance	120 Ohm/m
	Delay	5 ns/m
Length	Baud Rate [bps]	Length MAX [m]
Length	Baud Rate [bps] 125 K	Length MAX [m] 500
Length		

Document code: MN67609\_ENG Revision 1.003 Pagina 12 di 25

### **USE OF COMPOSITOR SW67609:**

To configure the Converter, use the available software that runs with Windows called SW67609. It is downloadable on the site <a href="https://www.adfweb.com">www.adfweb.com</a> and its operation is described in this document. (This manual is referenced to the last version of the software present on our web site). The software works with MSWindows (XP, Vista, Seven, 8, 10 or 11; 32/64bit).

When launching the SW67609, the window below appears (Fig. 2).

#### Note:

It is necessary to have installed .Net Framework 4.

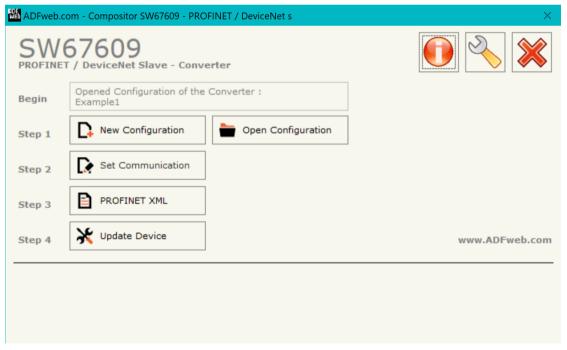

Figure 2: Main window for SW67609

Document code: MN67609\_ENG Revision 1.003 Pagina 13 di 25

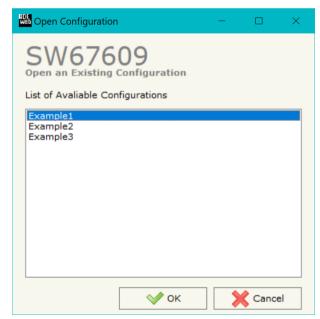

### **NEW CONFIGURATION / OPEN CONFIGURATION:**

The "New Configuration" button creates the folder which contains the entire device's configuration.

A device's configuration can also be imported or exported:

- → To clone the configurations of a Programmable "PROFINET Slave / DeviceNet Slave Converter" in order to configure another device in the same manner, it is necessary to maintain the folder and all its contents;
- → To clone a project in order to obtain a different version of the project, it is sufficient to duplicate the project folder with another name and open the new folder with the button "Open Configuration".

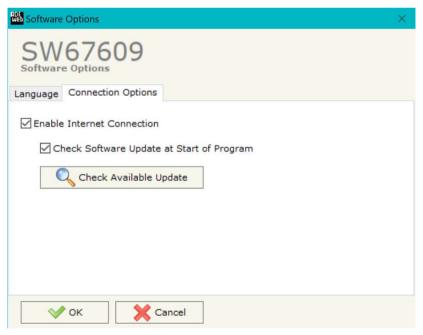

Document code: MN67609\_ENG Revision 1.003 Pagina 14 di 25

### **SOFTWARE OPTIONS:**

By pressing the "Settings" ( ) button there is the possibility to change the language of the software and check the updatings for the compositor.

In the section "Language" it is possible to change the language of the software.

In the section "Connection Options", it is possible to check if there are some updatings of the software compositor in ADFweb.com website. Checking the option "Check Software Update at Start of Program", the SW67609 check automatically if there are updatings when it is launched.

Document code: MN67609\_ENG Revision 1.003 Pagina 15 di 25

#### **SET COMMUNICATION:**

This section define the fundamental communication parameters of two buses, PROFINET and DeviceNet.

By Pressing the "**Set Communication**" button from the main window for SW67609 (Fig. 2) the window "Set Communication" appears (Fig. 3).

The window is divided in two sections, one for the PROFINET and the other for the DeviceNet Slave.

The means of the fields for "PROFINET" are:

- ▶ In the fields "IP ADDRESS" insert the IP address that you want to give to the Converter;
- → In the fields "GATEWAY" insert the default gateway that you want to use. This feature can be enabled or disabled pressing the Check Box field. This feature is used for going out of the net;
- → In the field "Port" the port used for PROFINET communication is defined. The port has a fixed value of 34964;
- → In the field "PROFINET Name of Station" is possible to assign a name to the PROFINET node.

The means of the fields for the "DeviceNet Slave" section are:

- → In the field "ID Device" the address for the DeviceNet Slave is defined;
- ▶ In the field "Baudrate" the velocity of the DeviceNet Slave bus is defined;
- → In the field "Number Byte IN" the number input bytes of DeviceNet Slave is defined (at max 455 bytes);
- → In the field "Number Byte OUT" the number output bytes of DeviceNet Slave is defined (at max 455 bytes).

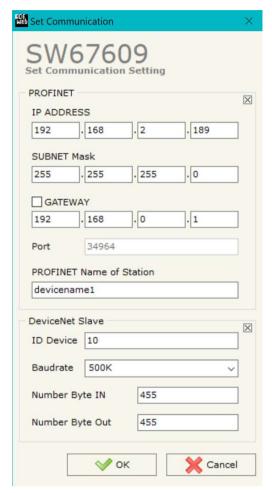

Figure 3: "Set Communication" window

Document code: MN67609\_ENG Revision 1.003 Pagina 16 di 25

# **XML FILE:**

By Pressing the "PROFINET XML" button from the main window for SW67609 (Fig. 2) it is possible to generate the xml file to be imported into the master PROFINET.

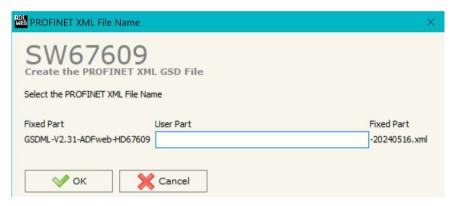

Figure 4: "PROFINET XML File Name" window

Document code: MN67609\_ENG Revision 1.003 Pagina 17 di 25

#### **UPDATE DEVICE:**

By pressing the "**Update Device**" button, it is possible to load the created Configuration into the device; and also the Firmware, if necessary. This by using the Ethernet port.

If you don't know the actual IP address of the device you have to use this procedure:

- ★ Turn OFF the Device;
- ▶ Put Dip1 of 'Dip-Switch A' in ON position;
- Turn ON the device
- Connect the Ethernet cable;
- Insert the IP "192.168.2.205";
- Select which operations you want to do;
- Press the "Execute update firmware" button to start the upload;
- When all the operations are "OK" turn OFF the Device;
- Put Dip1 of 'Dip-Switch A' in OFF position;
- Turn ON the device.

If you know the actual IP address of the device, you have to use this procedure:

- ➤ Turn ON the Device with the Ethernet cable inserted;
- Insert the actual IP of the Converter;
- Select which operations you want to do;
- Press the "Execute update firmware" button to start the upload;
- ▶ When all the operations are "OK" the device automatically goes at Normal Mode.

At this point the configuration/firmware on the device is correctly updated.

Figure 5: "Update device" windows

### Industrial Electronic Devices

# User Manual PROFINET / DeviceNet Slave

Document code: MN67609\_ENG Revision 1.003 Pagina 18 di 25

### Note:

When you receive the device, for the first time, you also have to update the Firmware in the HD67609 device.

# Warning:

If Fig. 6 appears when you try to do the Update try these points before seeking assistance:

- Try to repeat the operations for the updating;
- → Try with another PC;
- Try to restart the PC;
- Check the LAN settings;
- → If you are using the program inside a Virtual Machine, try to use in the main Operating System;
- → If you are using Windows Seven, Vista, 8, 10 or 11 make sure that you have the administrator privileges;
- ➡ In case you have to program more than one device, using the "UDP Update", you have to cancel the ARP table every time you connect a new device on Ethernet. For do this you have to launch the "Command Prompt" and write the command "arp d". Pay attention that with Windows Vista, Seven, 8, 10 or 11 you have to launch the "Command Prompt" with Administrator Rights;
- → Pay attention at Firewall lock.

Figure 6: "Error" window

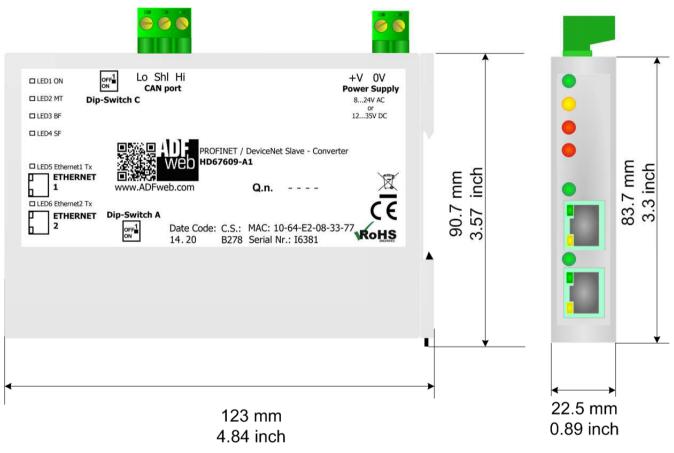

### Warning:

In the case of HD67609 you have to use the software "SW67609":  $\underline{www.adfweb.com\backslash download\backslash filefold\backslash SW67609.zip}$ .

Document code: MN67609 ENG Revision 1.003 Pagina 19 di 25

### **MECHANICAL DIMENSIONS:**

Housing: PC-ABS

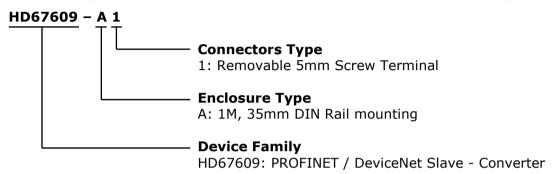

Weight: 200g (Approx)

### **DISCLAIMER**

All technical content within this document can be modified without notice. The content of the document content is a recurring audit. For losses due to fire, earthquake, third party access or other accidents, or intentional or accidental abuse, misuse, or use under abnormal conditions repairs are charged to the user. ADFweb.com S.r.l. will not be liable for accidental loss of use or inability to use this product, such as loss of business income. ADFweb.com S.r.l. shall not be liable for consequences of improper use.

#### OTHER REGULATIONS AND STANDARDS

#### **WEEE INFORMATION**

Disposal of old electrical and electronic equipment (as in the European Union and other European countries with separate collection systems).

This symbol on the product or on its packaging indicates that this product may not be treated as household rubbish. Instead, it should be taken to an applicable collection point for the recycling of electrical and electronic equipment. If the product is disposed correctly, you will help prevent potential negative environmental factors and human health, which could otherwise be caused by inappropriate disposal. The recycling of materials will help to conserve natural resources. For more information about recycling this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

#### RESTRICTION OF HAZARDOUS SUBSTANCES DIRECTIVE

The device respects the 2002/95/EC Directive on the restriction of the use of certain hazardous substances in electrical **RoHS** and electronic equipment (commonly referred to as Restriction of Hazardous Substances Directive or RoHS).

### **CE MARKING**

The product conforms with the essential requirements of the applicable EC directives.

Document code: MN67609\_ENG Revision 1.003 Pagina 25 di 25

### **WARRANTIES AND TECHNICAL SUPPORT:**

For fast and easy technical support for your ADFweb.com SRL products, consult our internet support at <a href="www.adfweb.com">www.adfweb.com</a>. Otherwise contact us at the address support@adfweb.com

#### **RETURN POLICY:**

If while using your product you have any problem and you wish to exchange or repair it, please do the following:

- 1) Obtain a Product Return Number (PRN) from our internet support at <a href="www.adfweb.com">www.adfweb.com</a>. Together with the request, you need to provide detailed information about the problem.
- 2) Send the product to the address provided with the PRN, having prepaid the shipping costs (shipment costs billed to us will not be accepted).

If the product is within the warranty of twelve months, it will be repaired or exchanged and returned within three weeks. If the product is no longer under warranty, you will receive a repair estimate.
